The 8th International Symposium on Chinese Spoken Language Processing (ISCSLP-2012) will be held during December 5-8, 2012 in Hong Kong. ISCSLP is a biennial conference for scientists, researchers, and practitioners to report and discuss the latest progress in all theoretical and technological aspects of spoken language processing. Topics of interest for submission include, but are not limited to the following:

- Speech Production and Perception
- Speech Analysis
- Speech Coding
- Speech Enhancement
- Hearing Aids and Cochlear Implant
- Phonetics and Phonology
- Corpus-based Linguistics
- Speech and Language Disorders
- Speech Recognition
- Spoken Language Translation
- Speaker, Language, and Emotion Recognition
- Speech Synthesis
- Language Modeling
- Speech Prosody
- Spoken Dialog Systems
- Machine Learning Techniques in Speech and Language Processing
- Voice Conversion
- Indexing, Retrieval and Authoring of Speech Signals
- Multi-Modal Interfaces
- Speech and Language Processing in Education
- Spoken Language Resources and Technology Evaluation
- Applications of Spoken Language Processing Technology
- Others

While the Chinese language is emphasized, works on other languages that may be applied to Chinese speech and language are also encouraged. The working language of ISCSLP is English. Prospective authors are invited to submit full-length, five-page papers for presentation in any of the areas listed above. All papers will be handled and reviewed electronically and details can be found in the conference website <http://www.iscslp2012.org>. The ISCSLP-2012 also invites proposals of special sessions and welcomes exhibitions of products and demos of research prototypes within the areas relevant to the conference. Please refer to the conference website for details of their submission procedure.

\*\*\* Notice that all accepted papers will be required to be IEEE Xplore compliant since they will be indexed and published online on IEEE Xplore. \*\*\*
